

## Project requirements

Name: Eric Chartier

Community & UN SDG(s): RCEsaskatchewan Goal 17

Date: October 20, 2023

### Project Name

RCEsaskAssistance

### Functional Requirements

- We want visitors of the websites to be able view and search about the different projects that the RCE knows about based off criteria that may be of interest to the visitor such as the SDGs that the project intersects with
- We want to provide visitors to the website the ability to view more things about the monthly meeting such as the itinerary and link to the website.
- We want the user to have an easier time filling out forms. this includes notifications that the user's email has been sent and received.
- we want volunteers to be able to update the project data that is shown to visitors.
- we want volunteers to be able to update zoom meeting information
- needed task process documentation for volunteers to be able to know how to complete a task we are adding to the website

### Technical/Performance Requirements

- Required infrastructure will include wordpress
- this is a non profit community the wordpress plugins should be free.
